

Safe & Secure Contactless Mobile Solutions

Version 2.0

Send & Receive Money

Fundz® enables you to provide a secure and straightforward platform under your own brand for people to send or request money from anywhere. Your customers will enjoy a simple, safe, and secure method of sending and receiving money, regardless of their location.

Pay with the App

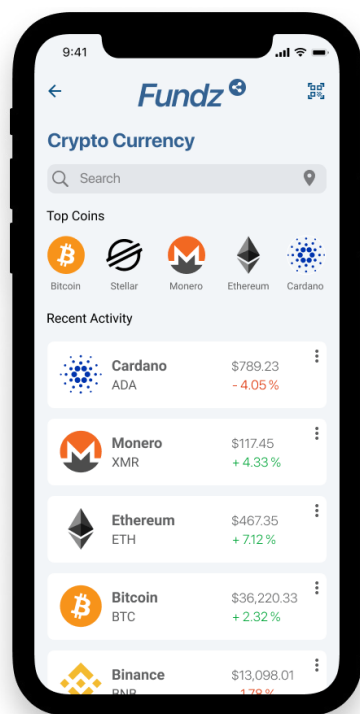

Enable your customers to effortlessly make payments at an increasing number of participating establishments.

With **Fundz®**, businesses can offer their customers a unique contactless payment option that puts them in control. Unlike most mobile payment apps that require customers to pay the full amount requested by the merchant, **Fundz®** allows them to decide how much to send and make up the rest using cash or any other preferred payment method.

With Fundz® your customer are always in control

Crypto

Offer to your customers a contactless hassle-free way to buy and use cryptocurrencies with **Fundz®**. Unlike other platforms, **Fundz®** features an integrated exchange that simplifies the process of buying various cryptocurrencies.

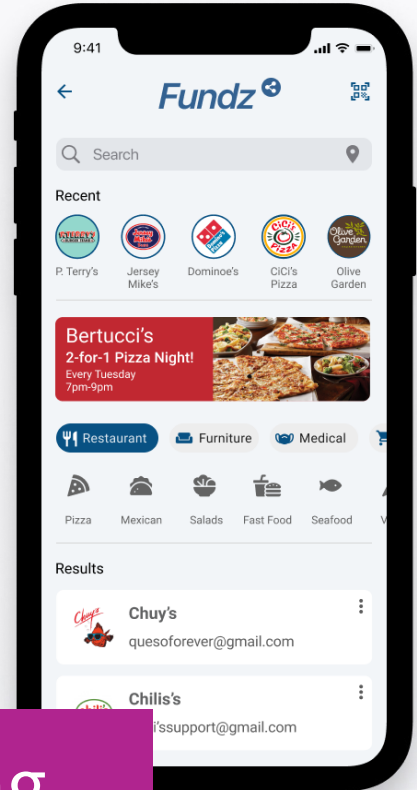

Additionally, customers can convert their cryptocurrency balances into a more convenient **Fundz®** balance.

BitFundz®

We are excited to announce the launch of **BitFundz®**, a revolutionary decentralized DeFi crypto wallet and mobile app that offers advanced self custodial capabilities. With Web3 integration, **BitFundz®** is the future of secure and convenient cryptocurrency management.

CLOUD  PAYMENTS LOYALTY SOLUTION

Digital Marketing

Deliver exceptional digital-first services and the engagement your consumers demand with unique, customizable solutions.

As part of **Fundz®**, we offer a comprehensive suite of digital marketing tools designed to foster brand loyalty and customer engagement. This includes our loyalty solution, **StickyStreet®**, which automatically rewards customers with points for frequent patronage and payments made through the app.

Additionally, our suite includes multi-lingual wallet, multi-channel marketing campaigns, promotional offers, digital rewards, and other powerful tools to help businesses connect with their customers, drive consumer behavior and build lasting relationships.

Share Fundz®

Share Fundz® makes it easy for customers to securely collect money, and then pay people and merchants directly, or just transfer it to a bank account.

Fundz® features your customers will love!

Create a Fund

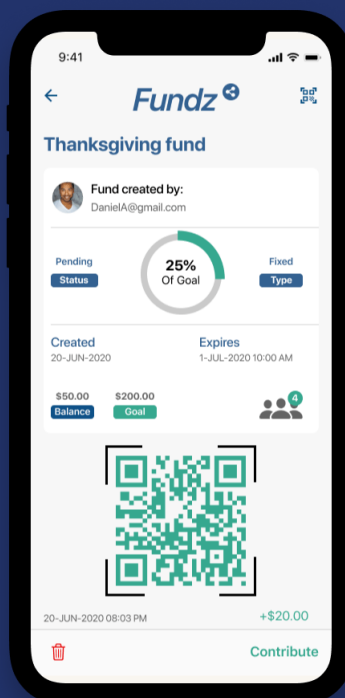

Invite people to any fund

See status/balance of Funds created

Add a credit card to load money into Fundz®

Send or request money

Manage credit and debit cards

Add bank account

Transfer money to/from bank account

Fundz® Card

As a business, we understand that some stores and businesses may not yet accept app payments. That's why we offer a **Fundz®** debit card, allowing your customers to make payments using their **Fundz®** balance in the traditional manner.

Contact Us
